

If my agent is out of town and a new house that I really want to see comes on the market, what happens?

Can you help me get pre-qualified for a loan?

Can you share a bit about how many homes you have helped people buy in this market?

Is real estate your full-time job?

How will you help me find a home?

What is your approach to open houses?

What incentive do you offer should you serve as both our buyers' agent and the sellers' agent?

What type of experience and resources do you use to solve problems that may arise during inspections?

Do you have a long-term relationship with licensed professionals to assist with any issues that may be common in older homes?

What will it cost me to buy or sell my property?

Could you please share three names and numbers of recent clients in this market?
